RE: Public Records Reference # P028012-121725

Dear Chris,

On December 17, 2025, the Department of Public Health (CDPH) received your request for records under the Public Records Act wherein you requested the following:

I'm writing to ask if you would be willing to share all of California's seafood biotoxin test results. In other words, all finfish, crustacean, and other shellfish biotoxin data for the whole CA coast for the entire history of the dataset.

I'm interested in all biotoxins (domoic acid, PSTs, DSTs, any others?) and am hoping that you can share all of the available raw data (all columns). The data will be most useful with columns for species, date, location, latitude, longitude, and toxicity.

The California Department of Public Health - Environmental Management Branch, Shellfish Program (CDPH-EMB-PSU) provided available records regarding bivalve shellfish biotoxin data for the whole CA coast for the entire history of the dataset via email on December 23, 2025. Attached we have also provided available records from the California Department of Public Health – Food and Drug Branch (CDPH-FDB).

Please visit our website –
[Division of Radiation Safety and Environmental Management](#)

You may also wish to redirect your request to the following:
California Department of Fish and Wildlife: <https://wildlife.ca.gov/>
Office of Environmental Health Hazard Assessment: <https://oehha.ca.gov/>

If you have any questions regarding this matter, please contact me at
Journey.Sysengchanh@cdph.ca.gov.

Sincerely,

Journee Sysengchanh
